

BIG BROTHERS FOR YOUR NEXT CHAPTER

The Lambda Mentors Program is a new experience for both active and alumni brothers to engage in a mentor/mentee relationship with members of similar interests, fields of study, and career goals. We believe the most successful mentor relationships are those that are organic. The program will make the connection between alumni and active brothers/recent graduates with similar career interests for guidance and support during the early professional career.

Program Overview

- ◆ Brothers will be paired with alumni in similar career fields
- ◆ Duration of the program spans over six months
- ◆ Program-wide discussions supported by regular one-on-ones
- ◆ Mixers and supplemental programming available at conferences

Throughout high school I was well equipped to navigate myself to college. Upon arrival, it was clear that the voyage ahead was much too uncharted to navigate alone; especially if I hoped to achieve the end goal of entering my professional career.

What better way to sail smoothly, than to have a brother by your side who can provide you with first-hand experience and guidance to assure you'll stay afloat and reach any destination you set your eyes on.

-Br. Erik Esqueda, AΔ Chapter
